

Welcome!

The Harvard Club of Austria is the meeting point for everyone who studied or attended a program at Harvard University. The aim of the club is to serve Harvard alumni throughout Austria and keep the members in touch with each other and with the University.

The Harvard Club of Austria has two major goals:

1. Professional goal

We arrange meetings and lectures concerning politics, business, sciences and the arts to provide our members with the newest information in specific social/professional areas.

2. Social goal

We organize events and activities for the Harvard Club, (often enabled by the members themselves). Exhibitions, concerts, wine tasting etc. are only a few events worth mentioning

Our main target is to keep in touch with other club members and to promote the connection to Harvard University and to other Harvard Clubs all over the world.
