

Dear Alumni, dear Friends of the Harvard Club of Austria,

We are delighted to invite you to our next event on **Friday, 6 October**, at the **MuTh concert hall**, when Gloria Benedikt (ALB 2013) will bring Eco-Theater to Austria for the first time.

Harvard Club and Oxbridge Society members will gather at **reserved tables at Cafe Maximilian inside MuTh from 7 pm** and after the performance.

**The performance starts at 8 pm.**

The evening will open with the composition *Four Drifting Seasons* by award-winning Dutch composer Merlijn Twaalfhoven, known for working with some of the world's leading music ensembles, such as the Kronos Quartett and the Netherlands Philharmonic Orchestra, as well as for his work on conflict resolution in the Middle East and the climate crisis. His *Four Drifting Seasons* composition is based on temperature rise data from 1880 to the present obtained from NASA.

The multimedia dance piece titled *Breath* by Gloria Benedikt and a team of scientists from Harvard and IIASA will then take you on a journey through time, starting from cyanobacteria that accidentally produced oxygen two and a half billion years ago, ultimately enabling life on planet Earth, to the present day, where the human species is slowly but consistently depriving itself of air to breathe and then perhaps, albeit belatedly, changing course. You can take a look at the Trailer [HERE](#).

The evening's artistic program will conclude with the premiere of the theater play titled *Piece of Cake* by playwright and co-director of the pioneering New York based Superhero Clubhouse eco-theater, Lanxing Fu, and Fabian Wagner, an IIASA climate scientist and Cambridge alumni.
